pulling the trigger

lyrics

01/ All Of You

(Cuijpers, Tolle, Voss-Schoen)

If your heart's been lonely
And you ask yourself why
Don't you know what your missing
Someone you can rely
Tell me what can I say now, baby
What can I do
Fallin' right out of heaven
Feelings turn into blue

Waiting for the right time to put it in this song
These words don't come out easy
Where did we go wrong

(Chorus)

For the love that's in you
for the hurt you've been through
In every little thing that you do
All of me wants all of you

Take whatever you want, babe
Don't you ever let go
Can't you feel it's the right time
Here's my heart and my soul
Yeah I do it for love
Do it all for you
Whoa, this is my dedication
And all my words speak true

Waiting for the right time to put it in this song
These words don't come out easy
Where did we go wrong

(Chorus)

For the love that's in you
For the hurt you've been through
In every little thing that you do
All of me wants all of you

I wanna tell ya what I feel
I wanna show ya that my love is real

Solo

(Chorus)

For the love that's in you
For the hurt you've been through
In every little thing that you do
All of me wants all of you

02/ Never Let You Go

(Cuijpers, in't Zandt, Tolle, van Gestel, Voss-Schoen)

It feels so good to have you near
It feels so good to have you here
The one that I adore
Please give me a second chance

Don't know what came over me
Now I'm helpless, can't you see
The one I love
Hides her love in self defense

Loving you wanting you
Holding you unworthy
I was a fool not to know

(Chorus)

I should have never let you go
Now That I know
I was wrong and I realize
I should have never let you go
To ever leave your side
I was wrong and still wonder why

All the passion in your eyes
Kept hiding all these lies
Is it really love
or is it just a masquerade

Don't know what you feel for me
Now the truth is out you see
Am I the only one
Or is it all just one mistake

Loving you wanting you
Holding you unworthy
I was a fool not to know

(Chorus)

I should have never let you go
Now that I know
I was wrong and I realize
I should have never let you go
To ever leave your side
I was wrong and still wonder why

It feels so good to have you near
Feels so good to have you here
The one that I adore
Please give me a second chance

I never let you go, I never let you go

Solo

(Chorus)

I should have never let you go
Now That I know
I was wrong and I realize
I should have never let you go
To ever leave your side
I was wrong and still wonder why

03/ Rain

(D. Scheff, Tolle)

The clouds are moving in real fast
But I will be the sun
I will make the dark skies blue
All over again

Even with my best intentions
It doesn't look that good right now

(Chorus)
Rain, all I see is rain but I can't let go
Rain, I'm tellin you my heart doesn't wanna know

Please excuse my emptiness
Right now I'm not quite myself
I seem to change when I see you face to face
You just do that to me

And even with my best intentions
It doesn't look that good right now

(Chorus)
Rain, all I see is rain but I can't let go
Rain, I'm tellin you my heart doesn't wanna know

I don't know how to act when I'm around you
I keep on trying over again

Solo

Even with my best intentions
It doesn't look that good right now

(Chorus)
Rain, all I see is rain but I can't let go.
Rain, I'm tellin you my heart doesn't wanna know

04/ Déjà Vu

(Cuijpers, Tolle, Voss-Schoen)

Bad, bad girl what can I do
I'm burning up when I'm with you
Like rollin' thunder through my veins
Dusty clouds to blur my view
Babe I just cannot see through
My vision's morphing into pain

There is a little light at tunnel's end today
Ooh, baby all that I wanna say

(Chorus)
Déjà Vu
All that I can see is my future here with you
Déjà Vu
Life isn't easy, that's true

In my heart I'm back today
To the place where you and me once stayed
It is our own heartbreak hotel
Years have passed since you've been gone
But I'm still standing strong
We better end this misery

There is a little light at tunnel's end today
Ooh, baby all that I wanna say

(Chorus)
Déjà Vu
All that I can see is my future here with you
Déjà Vu
Life isn't easy, that's true

Solo

(Chorus)
Déjà Vu
All that I can see is my future here with you
Déjà Vu
Life isn't easy, that's true

Déjà Vu
All that I can see is my future here with you
Déjà Vu
'Cause life isn't easy, that's true, true, true, true

05/ Weep

(Cuijpers, Tolle, Voss-Schoen)

Too late, we're tied in chains
Too weak to run away
Magnetized by strong attraction
Wanted love and your affection

Turned out into a mess
Misery and distress
There are no more apologies
No regrets, they never meant to be

Ooooh Noohoo

(Chorus)

Don't weep these tears because of me
Don't even set me free
Would you put your arms around me

I betrayed you much too much
I pushed my needs forgot yours
Such a beshaming disgrace

Too weak, a mess remains
Too late you've gone astray
Hypnotized by strong affection
No more love feeds my reaction

Nooo Noohooo

(Chorus)

Don't weep these tears because of me
Don't even set me free
Would you put your arms around me

I betrayed you much too much
I pushed my needs and forgot yours
Such a beshaming disgrace

Too late to run away
Too late to runaway
Too late to run away

Too late we're tied in chains
Too weak to run away

(Chorus)

Don't weep these tears because of me
Don't even set me free
Would you put your arms around me

Don't weep these tears because of me
Don't even set me free
Would you put your arms around me

I betrayed you much too much
I pushed my needs forgot yours
Such a beshaming disgrace

06/ Pulling The Trigger

(Tolle, Voss-Schoen)

Time after time I've seen this situation
Too many reasons and justifications
You're on my list
The greatest regret
The wrong person creeping into my bed

Your lower reptile brain
Bringer of pain
I don't want the impulse after all we've been thru
It's just better to fire you

(Chorus)

Pulling, pulling the trigger

Bad attitude
Don't start your complaining
You are the one I am still blaming
Sooner or later I may have succeeded
You never did whatever was needed

Your lower reptile brain
Bringer of pain
I don't want the impulse after all we've been thru
It's just better to fire you

(Chorus)

Pulling, pulling the trigger

Losing the ability to figure out bad company
After all I recognise, I've been sleeping with an enemy

Solo

(Chorus)

Pulling, pulling the trigger

07/ Who Gives You The Right

(Cuijpers, in't Zandt, Tolle, van Gestel, Voss-Schoen)

Can't take it anymore
Don't you lie again
Your chips are running out
I'm not in for the pain

Gotta find yourself
Someone paying the bills
Jump off my neck
Don't keep sending me thrills

You're such a beautiful thing
But all I can assume
You ain't telling the truth
Smelling his perfume

Your wasting my time
Baby with your lines
Your tongue is twisted
And your words don't rhyme

(Chorus)
Who gives you the right
Who gives you the right to tell me
What I feel inside
Who gives you the right

Who do you think you are
I think you have gone too far
Too much talk tonight
Who gives you the right

You're a nasty little woman
All of this is true
You keep telling these lies
You haven't got a clue
You're spending every minute
Just wasting your life
Put your voice on mute
And we will all survive

(Chorus)
Who gives you the right
Who gives you the right to tell me
What I feel inside
Who gives you the right

Who do you think you are
I think you have gone too far
Too much talk tonight
Who gives you the right

08/ On The Cover

(Cuijpers, Tolle)

There's one thing you've been dreamin' of
This get's you off the street again
High heels and struttin' down the boulevard of broken
dreams
Short skirt and shades to make you hide away

You know there's something you can do,
That makes it feel so good
You know there always that dream
That makes it all right like it should

(Chorus)
Just wanna be on the cover
Wanna be
Where you should belong
Just wanna be on the cover
Wanna be on the cover of a glossy magazine

You've been down the gutter once or twice
There is so much more there for you
Look around you through velvet lights of hopes and dreams
Make up and wigs to make you hide away

You know there's something you can do
That makes it feel so good
You know there always that dream
That makes it all right like it should

(Chorus)
Just wanna be on the cover
Wanna be
Where you should belong
Just wanna be on the cover
Wanna be on the cover of a glossy magazine

Even though you try to make it right
I can see you there shining bright
All dressed up like a Barbie doll
You just look like a real cover girl

Solo

You know there's something you can do
That makes it feel so good
You know there always that dream
That makes it all right like it should

(Chorus)
Just wanna be on the cover
Wanna be
Where you should belong
Just wanna be on the cover
Wanna be on the cover of a glossy magazine

09/ Rock My World

(Cuijpers, Tolle)

Woke up this morning and rolled outta bed
Instead of waking up I wondered where I am at
Times they are changing every time we meet
Luck is running out on me each time I believe

Show me all you want, show me all you got inside yeah, yeah
Show me all you need
Still I do believe

(Chorus)
All you do is knock me down
You just rock my world around
All you do, is knock me down
Ooooh, you rock my world

Times they are changing
Each time and day
All I wanna do is make it go away
All I can feel inside my soul
Luck is running out ooh baby, it's all I want

Show me all you want, show me all you got inside yeah, yeah
Show me all you need
Still I do believe

(Chorus)
All you do is knock me down
You just rock my world around
All you do, is knock me down
Ooooh, you rock my world

Solo

(Chorus)
All you do is knock me down
You just rock my world around
All you do, is knock me down
Ooooh, you rock my world

10/ Who Is The One

(Cuijpers, in't Zandt, Pennings, Tolle, Van Gestel)

A feeling can be sometimes deceiving
All that I need is someone like you
Someone like you

A heart's like an ocean, sometimes runs deep
There is no ending to who we should meet
Who we should meet

(Chorus)
Who is the one
Are you the one, that's gonna save me now
Are you the one

Everyone's life has its own flaws
We try to keep it behind closed doors
And we Never ever let it out
No we never ever let it out

You and I need love in our lives
We'd like to receive it all the time
All the time

(Chorus)
Who is the one
Are you the one, that's gonna save me now
Are you the one?
When I feel lonely and left alone
There should be someone that is... the one

Solo

And when I feel lonely and left alone

(Chorus)
Who is the one
Are you the one, that's gonna save me now

Who is the one
Are you the one, that is gonna save me now
Are you the one

And when I feel lonely, left alone
There should be someone that is the one

11/ Let Me Out

(Cuijpers, in't Zandt, Pennings, Tolle, Van Gestel)

It's so frustrating it won't leave me alone
There must be some kinda way outta here

I still hear voices, that tell me what to do
I have to find a way, so I can make it through the day

In my imagination I'm not the only one
It makes me wanna live in complete isolation

I used to be just like, just like the guy next door
But now I've changed and I don't wanna hear it anymore

Is there someone out there that can hear me now
Is there someone out there that can help me out

(Chorus)
Won't you let me out
Won't you let me out

I still hear those voices
That makes me go insane
I still have to find a way
To make these voices go away

I can't let it go
I just need to know
I'm having all these fears
It's drowning all my tears
All I need to find
Is some piece of mind
Why don't you just let me

(Chorus)
Won't you let me out
Won't you let me out

Won't you let me out
Won't you let me out

Why won't you (let me out)
Why don't you (let me out)
Why won't you (let me out)

Just let me, just let me, just let me out

12/ Voices Within

(Cuijpers, in't Zandt, Pennings, Tolle, Van Gestel)

Is what I see for real or only in my mind
My head pounds from voices within
The mirror stares at me
Another sleepless night
I need my breath
I'm stuck in my own mind

Now this path leads me
To my darkest day
aiting for the feeling to subside
A power deep inside me tears me apart
And now what may appear cannot be explained

(Chorus)
So be it
No way out
High above a solid ground
All I need is love and understanding

So I just wait inside
Voices repeating me
Innocence or justice for no one
My wall is closing in
I'm waiting for a sign
I still hear those voices within

Now it all reveals
This moment of despair
I'm longing for this feeling to pass by
Many roads to cross won't be ignored
And now what may appear cannot be explained

(Chorus)
So be it
No way out
High above a solid ground
All I need is love and understanding
Will you catch me if I fall
Within a minute you hear my call
All I need is understanding

Wait and you will see
That life does mean a thing
Just wait
Then I'll find what was left behind
All the things I'm looking for
Those voices are all true (voices are all true)
But I will win this fight and still go on and on and on

(Chorus)
So be it
No way out
High above a solid ground
All I need is love and understanding
Will you catch me if I fall
Within a minute you hear my call
All I need is understanding
